Report of School Nurse

All children had an annual inspection and parents were notified of defects found. All cases were followed up and most of the defects were corrected or improved. Some cases, where it seemed necessary, received financial assistance from such welfare sources as the Salvation Army, Red Cross, Sight Conservation Program of the State Public Welfare, Lindsey Fund, and the Bristol Rotary Club.

In February 1950 Miss Nellie Clough, R.N. and Miss Constance Martin, R.N., staff nurses for the New Hampshire Tuberculosis Society, assisted me in giving the tuberculosis patch tests to the children in grades seven through twelve inclusive. In all of my towns 357 children had the test with 5 showing positive reactions. Twenty-one teachers had the test with seven having positive reactions, teachers and children, had chest x-rays and examinations at the Chest Clinic held in Bristol by the New Hampshire Tuberculosis Society. No one showed any signs or symptoms of active tuberculosis.

Dental Clinics were held in Bristol with Dr. Sargent for the towns of Bristol, Bridgewater, Canaan, Danbury, and Hebron. Due to lack of time Alexandria and Grafton did not have a clinic but are being taken care of first this year and we will try to do as many of the other towns as possible. In all 85 children attended the clinics. Three of these were welfare cases. There are a number of children who need dental care whom I believe should have welfare dental work but due to the lack of available funds only the most urgent cases are cared for.

I wish to thank parents, children, teachers, the School Board, and Mr. Gray who have cooperated to help maintain the health of the children.

Respectfully submitted,
PHYLLIS E. ROBERTSON, R.N.

Superintendent's Report

The month of November marked the close of five years of working together in Supervisory Union No. 4 under a new superintendent and it is a source of satisfaction to look back and count the achievements which have been made possible through the cooperation of teachers, school board members, taxpayers, the State Board of Education, and the pupils themselves. All rooms have been painted, many have new lights, nine buildings have been painted outside, seven roofs redone, new heating installed in several buildings, improved playground equipment in at least two instances, and last but not least are two new buildings underway. These are all material achievements. To improve much on these matters will involve very expensive spending, and with future uncertainties it is well these things have been done. Non-material accomplishments have consisted in three teacher workshops, regrading of schools, extensive summer school attendance by the teachers, and the maintenance of a very competent teaching staff in spite of differences in ages, training, experience, and the lowest salaries in the state. How much longer this can be done is pure guess-work.

Our educational offerings in most towns are very limited and kept to the bare essentials. Only two towns offer music supervision, one offers hand-writing supervision, none has art supervision, remedial reading, or physical education. High school offerings are almost equally limited but Bristol's will be quite modern on completion of the new school and proper staffing of the same. Yet the lake region section of Union No. 4 is, by any objective standard, one of the richest in the state and for this basic reason will never receive much, if any, state aid as long as a formula is based solely on need.

Solutions to our educational needs are not easy, and are expensive. Present state aid formulas are totally inadequate as to amount. A million dollars this year will probably not cover the new inflationary trend. The

net result of this, both as to better educational opportunities for our children and for tax relief, will be close to zero. The basic purpose of any sound state aid program is to improve educational opportunities and not absorb inflationary trends over which we have absolutely no control.

The taxpayer of Orange is probably wondering why there will be no state aid under the new proposed formula. In brief, it can be said that it is due to the small number of pupils. With about 23 pupils attending both high and elementary schools Orange would become eligible for some aid for that would give a foundation program higher than the 18 mill tax. The proposed formula is not affected one way or another by whether or not a district maintains its own school. It allows \$175 for each elementary pupil and \$225 for each high school pupil attending public schools. The present formula gave some preference to those pupils not attending a rural, ungraded school but due to failure to cover the formula by sufficient appropriations the thing became ridiculous and should be forgotten as quickly as possible.

Respectfully submitted,

C. MAURICE GRAY
